PRESIDENTS

CORNER

Hello Everyone!

Spring is finally here! Time to start planning our flying events, how about an organized trip to another field? Any suggestions?? We are still looking for volunteers to join our FLY-IN committee. See Bill Shippee if you can help.

This months meeting will be held at Chip Diggins' shop at 62 Tispiquin St. Middleboro MA. We will hold a Fabric covering demonstration and everyone will get to see all of the steps involved from start to finish!

If anyone needs directions give us a call. See you all at the meeting

Mike

SECRETARIES REPORT

March 20, 2006

EAA Chapter UL62

Meeting called to order @ 7:31 pm. with 20 members present.
(Held at the Plymouth Airport)

LSA maintenance course has a tentative date of November 10th 2006, it is still in the planning stages.

The fly-in committee had a meeting and reported back with a proposed date of August 26 and 27th 2006 at Fisher field. Camping to be available.

Mohawk Valley fly-in is cancelled until further notice.

Topics of future meetings were discussed.

The June meeting will be a cookout at Fisher field
Our first cookout this year a Plymouth will be held on June 24th. They will be every month until it gets too cold to cook hamburgers.

A very informative PowerPoint presentation on Aircraft insurance was provided by Mike Butts.
USUA is providing insurance for ultralights at a reasonable cost, through First Flight Insurance Group.

Meeting adjourned at 8:26 pm

Respectfully submitted By Chip Diggins for
Richard Williamson.

Chip's Tech Talk

We recently experimented with a new way to apply Poly Brush when doing aircraft covering. It normally takes several tedious hours to brush the first coat of Poly brush onto a wing or fuselage. While recovering some Kolb wings recently, we tried spraying on the first coat. The trick is to use two people. One person spraying and the second person runs the brush along to force the paint into the weave. This process has turned out to be very successful. one wing can be completed in about 10 minutes. The coating is much more uniform with no runs and uses about 50 percent less material. That saves time, cost and weight. Happy flying, Chip
