## PRESIDENT'S CORNER

Hello Everyone,

This month our meeting will be held at John Sannizzaro's workshop. It will be interesting to see the progress that he has made on his Vans RV. We will also get to sample his famous chili!

Plans are well underway for our Aviation flea market and Young Eagles event. We will need plenty of volunteers so GET INVOLVED!!!

Anyone who needs directions can give me a call.  
See you all at the meeting.

Fly Safe  
Mike

Hi Everyone,

I have turned back the clock ten years to the day. The following is a reprint of the "Hall Report" by Ed Hall. March 2000..... Being a mechanic for many years, I have seen many items for sale that come under the disguise of a mechanic in a can. Many of these items were supposed to stop oil burning, bring up oil pressure and many other cures. Most are just a good way of separating you from your hard earned money. Years ago I used Liquid Wrench to help free valves that were sticking in the guides and it seemed to work. the other day I was looking through some old tech counselor pamphlets and came across an article where someone used Liquid wrench to loosen stuck rings in a Continental engine, He claimed that it worked and compression in the low cylinder was brought back to normal. With two cycle engines, we can remove the exhaust manifold and see our rings. Maybe someone could try this next time they need to de-carbon their rings. See you next month, Ed Hall

Chip

### CHAPTER MEETING

March 15, 2010

John Sannizzaro's @ 7pm

7 Daniel Circle

Plymouth, MA 02360

# February Secretary's Report

**EAAUL62 02/15/10**

**Substitute President, Chip Diggins called the meeting to order at 7:25 pm. At 6:30, Chile with shredded cheese, chips and Corn Bread was served. Thanks to Kim Coon. Chip also bought a fruit platter and two cookie trays. We had a tough time finishing it so leftovers were taken home.**

**Thirteen members were present and two guests, Will Foshey and John Badessa. Mike is working in Florida and John is in Florida re-training killer whales, no, he is working on his RV ratings.**

**The secretary's report was accepted as published in the newsletter with the following correction. New member Rick Coon was incorrectly listed as Rick Kuhn. His wife, Kim, is also a member.**

**Bill Shippee presented the treasurer's report for January - approved. The annual check was sent to the Plymouth Airport Commission for use of the meeting room.**

**A Young Eagles event is being planned for June 19th. The weekend after the June meeting. Some of the Hampton vendors will be invited. It will be a fly-in, flea market and young eagles.**

**If anyone knows the name of a prospective young eagle, please contact a chapter officer.**

**Mike Forand, Dick Forand, Rick Coon, and Joe Bolton will serve on the young eagles committee with Coordinator Steve Donahue.**

**Rick Coon bought a Koala 202 built by Tom Williams. The wing is broken but he has all the pieces.**

**The Gyro has it's airworthiness certificate. The pilot needs more dual (takeoffs).**

**The new auto fuel has a shelf life of two weeks and needs a stabilizer for alcohol fuel.**

**The meeting was adjourned and we all went over to Gate 1 to see John Badessa's Titan Tornado.**

**To have any events put in the newsletter just send Donna Butts an e-mail.**

**Respectfully submitted,**

**Alan Pugh, Secretary**
